EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. Dean M. Harts on 10/27/2004.

The application has been amended as follows:

Cancel claims 25-34

Examiner's Statement of Reasons for Allowance

2. The following is an examiner's statement of reasons for allowance:

As presently amended, claims call for the polymer of the adhesive to be a block copolymer of polyether and polyamide. Since the prior of CHRISTIAN and PINNAVAIA do not teach required polymer, the rejection over the prior art of record are overcome. The prior art of CHRISTIAN and PINNAVAIA also do not teach electroconductive scrim that is required by independent claim 36.

Although the present claims contain open language of comprising, the prior art of CHRISTIAN and PINNAVAIA still lack required block copolymer and electroconductive scrim.

Upon updating search report, the examiner found disclosures of MAJUMDAR (US 6,025,119), NAIR (US 6,767,951) and FISHER (US 6,579,927). All three disclosures teach exfoliated clay composition comprising block copolymers however, these disclosures teach making of molded articles. The above disclosures also do not teach or suggest utilizing any type of electrically conductive filler. Hence the disclosures found during the updated search are also not applicable against present claims.

In view of the above discussion, pending claims are passed to issue.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue
